

THE BIKE SHED

A range of strong, custom-built premium quality bike sheds specially designed to protect your bikes and gear.

We use  COLORSTEEL

Store your ride in the best bike shed around.

At Gary's Garden Sheds, we offer high-quality, durable bike sheds designed for easy access and secure storage. Whether you need to store one bike or many, we offer standard or customised solutions to suit your needs and garden space.

How to choose the right size bike shed

The right size bike shed depends on the number of bikes you have, the size of your bikes, and available garden space. Here's a guide to help you select the perfect shed:

Number of Bikes	Horizontal 	Vertical 
1	2.0 x 0.9m	1.8 x 0.9m
2	2.4 x 1.2m	2.4 x 1.6m
3-4	2.4 x 1.8m	2.4 x 1.8m
5 or more	Talk to our team	

Note: These are general guidelines for bikes up to 1.8m in length. We offer customised storage solutions to meet your specific needs. Shed dimensions are external.

Things to consider

Number of bikes: Determine how many bikes you need to store, and whether you need space for additional storage.

Storage type: Choose between horizontal or vertical storage.

- **Horizontal** We recommend sheds with a minimum length of 2.0m for standard bikes
- **Vertical** For bikes up to 1.8m in length our standard shed heights are suitable. For longer bikes, increase the shed height by +100mm.

Door access: For easy access to your bikes, consideration is given to the door type and placement depending on the shed size and how the bikes are being stored.

Custom heights: Customise the height for the perfect fit under windows or just for the perfect blend in the garden.

Available space: If you're working with limited space, consider using vertical racks or a custom layout to maximize storage. Our fixed or swivel vertical racks are a great option for efficient space-saving.

Contact us today to find the ideal bike shed for your needs. Whether you have one bike or many, Gary's Garden Sheds has the perfect solution to keep your bikes safe, secure, and organized.
