

THE POOL SHED

We provide a range of strong, custom built sheds to house your pool pumps and filters. Designed & Built Right for your needs, we find the perfect solution for your site.

We use  COLORSTEEL®

We offer the best quality pool sheds on the market designed to suit your unique landscape.

Strong, functional and weathertight, they are the perfect option to protect your equipment. Custom sizing allows you to get the right fit for your site, height can be standard or lowered for the ideal blend into your backyard.

Built with Colorsteel

ColorSteel® Maxam™ is high quality, durable and low maintenance to resist against harsh NZ conditions, representing the perfect blend of form and function.

Roof

We offer both standard (high at front) and reverse rooflines (high at back). We also have standard or custom heights available to suit.

Door access

A range of door options are available to allow easy access to the pumps to suit requirements – talk to us about your access needs.

Installation included

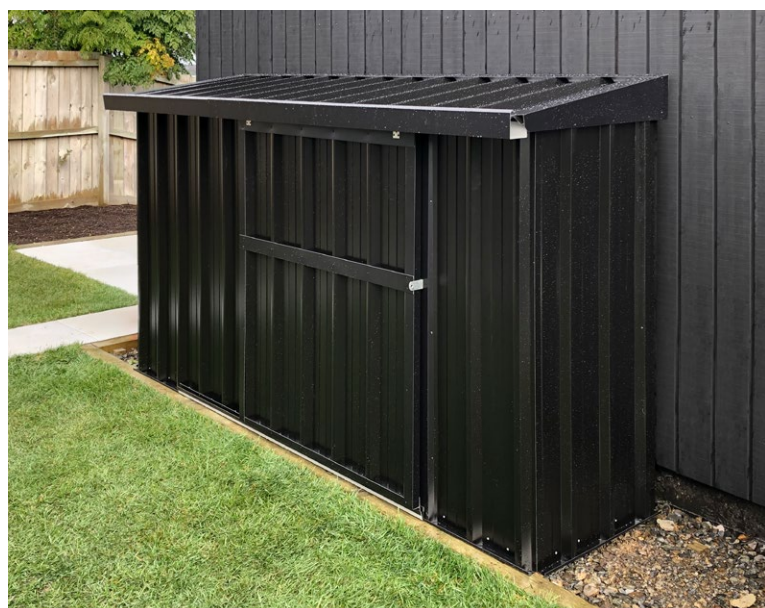

Our pricing includes installation by our professional team, built with our timber base/floor or on a purpose built concrete pad. We can coordinate with your pool company to make sure the shed is fit for purpose and ready for install when required. (Delivery charges apply, pick up available)

Requirements

We require 100mm clearance free from any pipes, etc. around the inside edge of our cladding to run our timber base plate. Please consult with us before installing the concrete pad.

Colours

We stock the full range of genuine ColorSteel® Maxam™ colours giving you the opportunity to make a choice that works with your surroundings and reflect your style.
